

Dear Vijay Baladhye,

1801063-"Computational Characterization of Natural Compounds as Selective Inhibitors of Mutant NRAS in Melanoma" is the minor decision marked by Oğuzhan Koçer for the article.

Dear Vijay Baladhye,

Decision: Minor Revision

Editor Comment: *Dear author, please colored and revised the revisions according to the referees' suggestions. Also, include at least one citation to a study published in the International Journal of Chemistry and Technology related to your work.*

Reviewer Reviews

Reviewer-1

1. Title of the paper:

- *Computational Characterization of Natural Compounds as Selective Inhibitors of Mutant NRAS in Melanoma*

2. Article Type:

- *Research Article*

3. 1. Is the study compatible with the type of article?:

- *Yes*

4. 2. Is the subject suitable for journal?:

- *Yes*

5. 3. Have you a conflict of interest with any person institute company etc. specified in the manuscript?:

- *No*

6. 4. Do the authors declare there is no any conflict of interest in the text?:

- *Yes*

7. 5. Is the ethics committee report required in the study? If necessary is it specified in the text? Please write here:

- *no*

8. 6. Is there a contrary situation to the scientific and ethical rules in the study?:

- *No*

9. 7. Does the title of the manuscript reflect the content of the study?:

- *No-Should be changed*

10. 8. Does the abstract reflect exactly the purpose of the research the principal and important results?:

- *Yes*

11. 9. Does the introduction include the objectives of the study and provide an adequate background?:

- *No-Should be improved*

12. 10. Are all materials methods and techniques used in the 'materials and methods' section suitable and expressed clearly?:

- *Yes*

13. 11. Are the findings discussed and interpreted properly in the 'results and discussion' section?:

- *No-Should be improved*

14. 12. Are all the references selected correctly and adequate?:

- *No-should be improved*

15. 13. Is the study original?:

- *Yes*

16. 14. Referee suggestions:

- *The subject of the article is well-described and the situation it aims to convey is compelling. However, the introduction and conclusion sections could be improved. Also, the references section could be expanded and made more comprehensive.*

17. 15. Recommendation of the referee on the publication of the paper (you can mark more item than one):

- *Minor revision*

Comments and Suggestions for Author: The subject of the article is well-described and the situation it aims to convey is compelling. However, the introduction and conclusion sections could be improved. Also, the references section could be expanded and made more comprehensive.

Recommendation: Minor Revision

Reviewer-2

1. Title of the paper:
